EDUCATION

Malikussaleh University – Lhokseumawe, Aceh *Aug 2019 - Present*
Bachelor's degree, Informatics Engineering; Cumulative GPA: 3,52/4.0

SMK Bina Mandiri – Bekasi, Jawa Barat *Jun 2019*
Computer and Network Engineering

EXPERIENCE

IDCamp 2023 *Oct 2023 - Feb 2024*
React Web Developer

- Implemented the front-end logic for a Single Page Application (SPA) using React, defining the behavior and state of reusable UI components with React Hooks and Context API.
- Integrated the web application with external APIs to fetch and manage data, creating a dynamic and responsive user experience.
- Developed a seamless navigation system using React Router, enabling smooth transitions between different views without page reloads.

SIB Dicoding Batch 2 *Feb 2022 – Aug 2022*
Front-End and Back-End Web Developer

- Implement new features and optimize existing ones from front-end to back-end.
- Utilized a module bundler (Webpack) to manage assets and optimize the build process for modern web applications.
- Manage git repository according to git flow.
- Implementing the front-end logic that defines the behavior of the visual elements of a web application.
- Integrated web applications with external APIs to dynamically fetch and display data from a server.
